### **Text Emergency 999**

For those parents/carers that are not aware, it is possible to alert emergency services to your whereabouts even in situations where you are unable to talk out loud. EmergencySMS is similar to the police’s Silent Solution – which allows callers to inform emergency call handlers they require police assistance without making a sound. But, the EmergencySMS service allows people to silently request urgent assistance from police, as well as paramedics, the fire brigade and the coastguard.

Here's how to do it: Firstly, you must register your mobile phone number with emergency services before you can request help via text.

1. Send the word 'register' in an SMS message to 999
2. You will then receive SMS messages about the service
3. When you have read these SMS messages reply by sending 'yes' in an SMS message to 999
4. You will receive a SMS message telling you that your mobile phone is registered or if there is a problem with your registration.

Your phone number MUST be registered before you can use this service.
